CORPORATE SYSTEMS

ACHIEVE MORE WITHOUT EXHAUSTING YOUR BUDGET.

A new lineup of powerful Canon
multifunction office systems
that can take your business to
a higher level.

Your growing business is unique. You need greater productivity as well as the flexibility to shape office solutions around your specific needs. That's why you need the Canon imageRUNNER 2230/2830/3530 digital multifunction office systems.

Take command of your office productivity, starting with a standard copier configuration, and build a system to meet your printing, scanning, faxing, and document storage needs as your business dictates. The latest ImagePlatform architecture ensures concurrent processing of each task for maximum productivity every time, for every job.

And when the imageRUNNER 2230/2830/3530 devices are fully connected to your network, all users can leverage system capabilities directly from their desktops through intuitively designed drivers—complete with finishing and paper supply functions. All this in an extremely compact, cost-effective system your business can count on.

INTRODUCING THE imageRUNNER 2230/2830/3530

imageRUNNER 2230/2830

With the ability to deliver output at 22 and 28 pages per minute, respectively, the compact imageRUNNER 2230/2830 models are perfect for small businesses and workgroups.

imageRUNNER 3530

At 35 pages per minute, the imageRUNNER 3530 is an ideal solution for busier, medium-size offices and departments within larger corporations.

A SINGLE DEVICE THAT CAN DO THE WORK OF MANY

In addition to enhancing productivity, the imageRUNNER 2230/2830/3530 devices save space and reduce costs.

Compact, Durable Design

The incredibly compact imageRUNNER 2230/2830/3530 models are built to accommodate busy office environments with limited space. High-yielding supplies and consumables keep running costs and downtime to a minimum for top-notch efficiency. And thanks to an easy-to-load bottle design, toner replenishment is quick and clean.

An optional 50-sheet Duplexing Automatic Document Feeder easily handles multiple-page originals so you can focus on other tasks. The system handles various paper formats, from Statement-R to Ledger, with a maximum paper capacity of 2,250 sheets to keep your business moving. The imageRUNNER 2230/2830/3530 devices also support a range of output options to increase productivity, including an innovative built-in finishing option that offers full sorting, stapling, and optional hole-punching, without taking up any extra space.

Ease-of-Use

The imageRUNNER 2230/2830/3530 models are designed for easy operation at the device through an intuitive touch-screen panel or at a desktop using a Remote UI™** (User Interface) that allows users to control operations via their Web browser. Canon also provides a complete set of device management and monitoring utilities embodied in the NetSpot® Suite. As an ENERGY STAR® qualified system, the imageRUNNER 2230/2830/3530 systems are designed with the environment in mind.

Image of a Leader

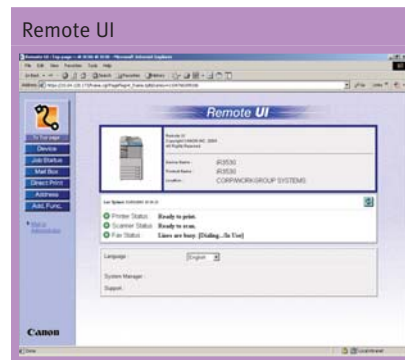

Canon continues to set new standards for quality, performance, and reliability. That's why you can trust Canon to provide you with solutions to make your business more productive and competitive.

A FIRST IMPRESSION ALWAYS LASTS.

Make Your Business Stand Out From All the Others.

Produce High-Quality Digital Copies with Confidence

The imageRUNNER 2230/2830/3530 models are designed to make your documents look their best. These systems can capture images at true 600 x 600 dpi resolution and produce high-quality output for both text and images—equivalent to 1200 x 600 dpi for copying and 2400 x 600 dpi for printing, with 256 gradations. Each model hosts a number of productivity-enhancing copy features that save time and money. Standard Automatic Duplexing provides two-sided printing to conserve time and paper. Also, with Canon's RAPID Fusing System™, warm-up times and energy consumption costs are kept to a minimum.

A Multifunctional Delight

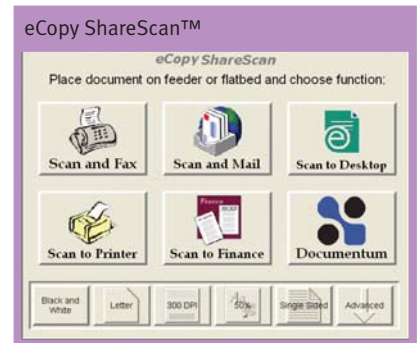

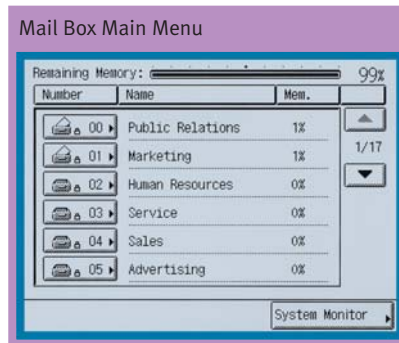

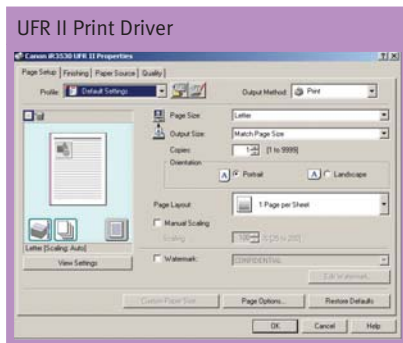

The imageRUNNER system, when equipped with an optional printer kit, is transformed into a productive multifunction device that can greatly improve your workflow. As networked printers, the imageRUNNER 2230/2830/3530 devices support the latest Canon Ultra Fast Rendering II (UFR II) technology for fast document processing, and available support for popular PCL 5e/6* page description languages. And with the Canon

Network ScanGear utility** you can easily integrate scanned images with your documents using TWAIN-compatible software.

Innovative Mail Box features** provide the ability to store scanned documents and printed files directly into device memory for later use. Each Mail Box can be customized and password-protected for complete confidentiality.

Powerful Document Distribution

The imageRUNNER 2230/2830/3530 systems can handle all your heavy-duty faxing needs when equipped with the optional Super G3 Fax Board.** Time-saving features include a high-capacity address book and auto-dialing to speed operation, as well as PC Fax capabilities that allow you to transmit fax documents easily from a networked computer. For even greater document distribution needs, you may configure the system with the powerful eCopy suite** of products that link the device to your company's e-mail and networked enterprise applications for secure, paperless distribution and management of data.
